WILCOX'S
IMPROVED STEAM WATER LIFTER
IS A STEAM PUMP,
WITHOUT ENGINE, PISTON OR PLUNGER,

Using Steam direct from the Boiler, without the intervention of any other machinery. It has won FOUR FIRST PREMIUMS at California State Fairs, within the last five years.

It is used on the Central and Western Pacific Railroads, from Oakland to Ogden.

It is used for Mining in Shafts, in Tunnels and Placer Diggings.

It is used for Water Works, for Irrigation and Watering Stock, for House and Farm use, for Sprinkling Streets, Draining Ponds, and Pumping for Sinking Wells.

Several of the Lifters can be seen at work near Woodland.

Merits Worthy of Consideration:

CHEAPNESS.—Its cost is less than one-half that of any other Steam Pump of like capacity.

ECONOMY OF STEAM.—It uses the exhaust steam alone for its suction, and the expansive power is applied direct, instead of wasting a large percentage on the friction of pistons and other machinery.

PORTABILITY FOR DEEP WELLS, SHAFTS AND TUNNELS.—Will work well in Wells and Shafts from 100 to 200 feet in depth, and in Tunnels from 500 to 1000 feet in length, whether straight or angular. There is neither steam nor smoke escaping in the shaft or tunnel.

NOT DERANGED BY MUDDY WATER.—Having neither piston nor packing, the common derangement from grit is not incurred. Hence its great durability.

ANY PERSON CAN RUN IT.—It being so simple in construction and action, any person of ordinary intelligence can run it with safety.

They are made of any capacity, from 1,000 gallons to 100,000 gallons per hour.

For $75 I will sell a Water Lifter of 1,000 gallons per hour capacity; and for $85 I will furnish a boiler, with all necessary attachments, that will be sufficient to raise 1000 gallons 50 feet in one hour. All other sizes correspondingly low.

Parties can see them in operation at my shop, or one at the Presidio, San Francisco, daily driving 3000 gallons per hour up a slope 2,500 feet, with a perpendicular rise of 100 feet.

[Written for THE YOLO DEMOCRAT.]

THE BRIGHT SIDE.

BY J. D. HATCHER.

I shall never forget so long as I live,
The kind, cheering words that my mother would give
To any she met with whose face wore a frown,
Or who by misfortune seemed slightly cast down;
And these are the words that she spake far and wide—
"Cheer up, my dear friends; look upon the bright side."

And if I, disappointed 'bout some childish whim,
Should hang down my head and relax every limb,
Or sit in my chair looking dull and forlorn,
Wishing, almost, that I'd never been born,
She'd draw her chair near, and me softly she'd chide,
Saying, "Bennie, my son, look upon the bright side."

And as I grew older these same words she'd say,
Whenever deep trouble came passing my way;
And when the Great Ruler of heaven and earth
Called my mother to dwell in a much higher berth,
The last words she spake when she sank back and died
Were, "Bennie, my son, look upon the bright side."

And these words have followed me all through my life,
Cheering me ever in trouble or strife;
Ah yes, they're imbedded deep down in my heart,
And, God being willing, with them I'll ne'er part.

And when I'm in trouble, or tempted, or tried,
I'll never forget to look on the bright side.

And when I have served out my time here below,
And am at last called by Jehovah to go
To the realms of the blest, where the righteous are found
And where no more sorrow or troubles abound,
I'll spread out my wings and lightly I'll glide
To join my dear mother upon that bright side.

Obsolete Ideas.

The Oakland *News* characterizes the Democratic party as one of obsolete ideas. The Republican press generally declare that the Democracy have no ideas, except a stubborn opposition to all measures espoused by the Republican party, having nothing to offer instead thereof. Surely the measures of the Republican party are not obsolete, but rather of such newness and recent conception as to be outside of all precedent. So diametrically at variance with the principles laid down by the framers of the Republic, in such direct opposition to the policies pursued in all the years of its existence, and in such flagrant violation of constitutional law, that almost every vestige of the original is taken away; thus awakening a degree of uncertainty in the minds of many who have hitherto had faith in the wisdom of our "fathers" a fearful misgiving of the permanancy of the Government and the perpetuity of its institutions. The ideas of the Democracy may in time become obsolete, but it will be only when the rashness of the party in power shall have utterly destroyed the old landmarks—*true* Republican principles, which have had the sanction of the priest, the wisest and the best men of the country, and been tested by many years of successful trial and experience. To follow the Republicans in their intricate and torturous pursuit, will furnish to the Democracy *new* ideas enough to expose their evident design to destroy the form of Government under which we have lived, prospered, and been free to make our own laws and choose our own rulers, and erect in its stead a centralized despotism, in which those, now the servants of the people, would become their masters. Obsolete ideas, indeed! It is the *News* and its kind who are now endeavering to engraft upon the public mind ideas which became obsolete at the surrender of Cornwallis.—*Chico Enterprise.*

WILLIAM CULLEN BRYANT.—Bryant the poet and journalist, is 77 years old, but has lost none of the attributes of genius which have made him distinguished in the world of letters. In a letter recently written to a friend he accounts for the condition of his mental vigor as follows:

I rise early, at this time of year about 5½, in summer half an hour or an hour earlier. Immediately, with very little encumbrance of clothing, I begin a series of exercises, for the most part designed to expand the chest, and at the same time call into action all the muscles and articulations of the body. These are preformed with dumb bells, the very lightest, covered with flannel; with a pole, a horizontal bar, and a light chair swung around my head. After a full hour, and sometimes more, passed in this manner, I bathe from head to foot. When at my place in the country, I sometimes shorten my exercise in the chamber, and, going out, occupy myself for an hour or more in some work which requires brisk exercise. After my bath, if breakfast be not ready, I sit down to my studies until I am called.

My breakfast is a simple one—hominy and milk, or, in place of hominy, brown bread or oat meal, or wheaten grits, and, in the season, baked sweet apples. Buckwheat cakes I do not decline, or any other article of vegetable food, but animal food I never take at breakfast. Tea and coffee I never touch at any time. Sometimes I take a cup of chocolate, which has no narcotic effect, and agrees with me very well. At breakfast I often take fruit, either in its natural state or freshly stewed.

STATE PRINTER.—Among the Republican journals who favor the nomination of Mr. Bell, of the *Elevator*, for State Printer on the Republican ticket, is the Marysville *Standard*, who styles him one of the ablest editors in the party and hopes it will not throw off on him. We hope not, too. But the difficulty in his nomination is that the Republican managers think, as they phrase it, that they have "got the niggers anyhow," so there is no use of giving them a candidate.—*Examiner.*

CLIMATES FOR WEAK LUNGS.—In a great majority of cases a dry mountain atmosphere is best for weak lungs. The water should be pure and soft, and the temperature as nearly uniform as possible. The eastern slope of the Rocky Mountains—Montana, Wyoming and Colorado—also Minnessota and Dakota, supply these conditions, and are the most desirable places for persons with weak lungs to spend the Summer months.—*Herald of Health.*

Corruption in High Places.

The New York *Sun* has done much to expose the rotteness and corruption of the Grant Administration, for which the country should be duly grateful to it. In its issue of the 1st inst. it has the following bit of history:

"Now we have from Toledo, Ohio, the proof that three of the most important offices in that Congressional district were lately put up for sale at the price of $4,000 for the three. The testimony to this effect is complete and conclusive. It is given by Mr. Alexander Reed, recently Postmaster of Toledo—a gentleman of distinguished character and unquestionable antecedents—and by Mr. J. Swinhart and Mr. George E. Welles, the Collector and Assessor of Internal Revenue at Toledo.

These three gentlemen publish a statement that in the latter part of February last, one L. M. Hunt, a friend of the present Administration in that district, who is especially influential with Dr. E. D. Peck, the member of Congress, caused to be made a proposition that if they would pay him four thousand dollars in cash they should be kept in office, and that otherwise they should be turned out. This proposition they refused, and they refused it still more decisively at a subsequent interview had with Mr. Hunt on the 8th of March last. Whereupon President Grant, on the 19th inst., appointed one E. V. McMaken to be Postmaster in Mr. Reed's place, and the appointment was confirmen by the Senate on the same day. Whether the Internal Revenue officers, who also joined with Mr. Reed in refusing to pay for their places, have yet been turned out or not, we do not know; but if they are still in office, they will doubtless have to go soon.

Facts like these show in a startling manner the extent to which the sale of offices is carried on under the example and influence of President Grant. In Cincinnati his father puts the price of a gauger's appointment at $500; in Tennessee one of his Collectors of Internal Revenue gets from $250 to $650 for subordinate places; and in Toledo $4,000 is asked as the Postmaster's, one Assessor's and one Collector's commission. How many more instances of such corruption may come to public knowledge it is impossible to say; but these few afford indications that the same abasement and depravity are likely to exist in every part of the country. And why should not this be the case? With a President greedy for presents, and appointing men to the highest offices in return for donations to himself; with a convicted bribe-taker, kept in a place of great importance and responsibility; and with the President's father confessing that he thought it right to take $500 for a gauger's appointment; how can the sentiment of honor and morality be expected to prevail in the subordinate departments of the Government or among the rank and file of the Republican party?"

RADICAL FALSEHOODS EXPOSED BY A COLORED OFFICAL.—The Hon. James Lynch, Secretary of State in Mississippi, has published a letter to Gov. Alcorn denying certain statements lately made by Senator Ames concerning the condition of affairs in that State. Mr. Lynch, who is himself a man of color, testifies that the reconstructed Government of Mississippi has not proved a failure, and that the civil authorities of the State are able to protect all citizens without regard to race or color. There is, he says, among the whites a general disposition to recognoze an identity of interest as regards the relation of the races; and a sense of mutual dependence seems to be daily increasing. The deadly assaults which have been made on the colored people at Meridian and other places along the Alabama border he attributes to local causes alone; he is confident that the assassins who would disgrace the State will be no more successful in producing any general disturbance of the public peace than the horse thieves that trouble several counties. "As a representative man of my race," says Mr. Lynch, I want to see the experiment of self-government, without Federal intervention, tried a little while longer in the State of Mississippi. I have no doubt of the result. One thing is certain; the bayonet cannot give us peace and prosperity. It may maintain order while it glistens in garrisoned town; but we wish more than this." It is evident that there will be no honest occasion to put the Ku-Kluk bill in force in Mississippi. It is altogether unnecessary there and even where there is any show of necesity for it it will be altogether unwise to attempt to execute its provisions.—*N. Y. Sun.*

MEDICAL MAGNIFICENCE.—Elated, not unnaturally, by the successes that has hitherto rewarded him, Dr. Helmbold opens two new establishments early in the present year. One of these will be in this city, the other will be in Philadelphia. The new one in this city, under the Gilsey House, at the corner of Twenty-ninth street and Broadway, is 27 feet front by 85 deep. The one in Philadelphia is to occupy what has hitherto been used as a reading-room of the Continental Hotel, and is 22 feet front by 78 deep. The first mentioned, the Gilsey House, was thrown open to the public Saturday evening. The general plans, decorations, furniture and accessories of these new establishments are to be similar to the principal one at 594 Broadway.

Throughout the establishment there are evidences of the most lavish expenditure, controlled by excellent taste, and persons who visit New York to see the sights and do not visit these establishments have failed to see the first sight in the city.—*New York Standard.*

WORM CRUSHERS.—A man came down from San Francisco not long since, on his way to the lower country. His great attraction centered in his feet. He had two seats in the car reserved for his benefit. While here he went in a barber shop to get his face scraped. The operation being completed, he asked the tonsorial artist the damage. "Nothing sir! My regular charge is two bits, but its worth one dollar to see such a curiosity. Here is your change," handing the man six bits. On another occasion he got in a chair to have his understanding polished. "Sah," said the sable shiner, "you mus' excuse me. I do small jobs. I never takes contracts. But if you wish, sah, I will work on dem fellers dis afternoon for five dollars."—*San Jose Independent.*

Is the Climate Changing?

The Sacramento *Record* asks, and answers this question in a recent issue. Its reasoning will satisfy the minds of many who have wondered why such radical changes are taking place, not only in the neighborhood of Sacramento but throughout the State. Others may think and argue differently; but, until sounder philosophical research establishes a different cause, the *Record's* arguments may be accepted as proximately true. Here is its editorial:

"So marked a difference is apparent between the weather of the past two years and that of previous times in this State, as to warrant the consideration of the question, Is the climate changing? Among the more notable meteorological phenomena this year, we mark the lengthening of the rainy season, the frequency of cloudy weather, the prevalence of southerly winds, the increase of moisture in the atmosphere. Such weather as we are now experiencing is unprecedented in the memory of the oldest settlers. What reason have we to expect a climatic change? Well, there are several good reasons. The destruction of the forests on the slopes of the Sierras tends to modify the action of the seasons in those districts, by rendering the winters colder and the summers hotter and dryer. The removal of the protecting forest growth exposes rivers, streams, springs and lakes to a much quicker evaporation in the summer, while it increases the tendency to freshets and floods in the spring from melting snow. Thus the denudation of the mountains has a tendency to cause extremes in the seasons. Then the progress of settlement has led to the planting of trees in many places where they were unknown before. Large areas have been covered with orchards. Noble avenues and groves have sprung up in various directions. And, in effect, the work of creation has outstripped the work of destruction. The tendency of this increase in arboriculture on the plains is to modify the seasons there; to temper the sultry heat of the summer months; to lengthen the rainy season; and to break down that barrier which has for so many years appeared to divide, as with a material partition, the rainy from the dry seasons. Thus it happens that, in May, a month which has heretofore been usually a full summer month, we now have many dark and cloudy days, with occasional rains in different localities, and a succession of moist, warm south winds. There is nothing unreasonable in the theory that the causes we have named may be creating a gradual but steady change in our climatic conditions; and, so far as the welfare of the valleys is concerned, such a change would be productive of the most beneficial results. We fear that the rapid denudation of the mountains will be accompanied by effects injurious to the plains; but if attention is paid to sylviculture in the latter regions, and a plentiful growth of fruit and shade trees is raised, there is no reason why such a modification of the seasons may not be brought about, as will prove highly advantageous to our agricultural and commercial interests, and indeed to the mining interests in the foot-hills also.

PROPHESIES ON FRANCE.—The following prophesy of St. Carrio, Bishop of Artes, in the year 524, predicting the past and present misfortunes of Paris and France, has been singularly verified. It is contained in his book entitled "Liber Miracles," printed in Gothic characters, and deposited in the Royal Library, Paris:

"The administration of the kingdom of France will be so blinded that they shall leave it without defenders. The hand of God shall extend itself over them and over the rich; all the nobles shall be deprived of their estates and dignity; a division shall spring up in the church of God, and there shall be two husbands, the one true and the other adulterous. The legitimate husband shall be put to flight; there shall be great carnage, and as great a profusion of blood as in the days of the Gentiles. The Universal church and the whole world shall deplore the ruin and destruction of a most celebrated city—the capital and mistress of France. The altars of the temple shall be destroyed, the holy virgins outraged shall fly from their seats, and the whole church shall be stripped of her temporal god; but at length the black eagle and lion shall appear hovering from far countries. Misery to thee, oh, city of philosophy! Thou shalt be subjected; a captive, humbled even to confusion, shall at last recover his crown and destroy the children of Brutus.

CAPTURE OF A SEAL—A CURIOSITY FOR A MUSEUM.—Last Saturday evening several of our fishermen found in their net, at the conflux of the Napa and Sacramento rivers, a large seal, weighing nearly a hundred pounds. Professor Crane, who is now on this coast collecting specimens for his Museum at Lansing, Michigan, was informed of the capture, and immediately purchased the animal to send East. The Professor is a naturalist of great ability, judging from the collection and preservation of specimens in his possession at the Capital Hotel. Animals and birds are preserved by a process of embalming invented by himself, and which we understand he will teach to those so inclined. Among the collection, he has from our Bay a sea lion, a crawfish three feet long, and a seal. He has been making his headquarters at Marysville, where an extensive collection awaits sending East. Those who would learn to embalm a pet bird, fowl, or domestic animal would do well to give him a call.—*Vallejo Recorder, May 23d.*

THE NEW EMPIRE OF GERMANY begins from this time a career of immense importance to the world. Its population is the second of the great States of Europe. Russia leads it with 66,000,000; but including Alsace and Lorraine, Germany follows with 49,120,000, of the most economical and industrious inhabitants, perhaps, to be found in any community in the world. France comes next, with 39,480,000; and the Austrian monarchy, with 35,943,000, and Great Britain, with 30,838,000; last of all being Italy, with Rome, containing 26,470,000 inhabitants.

U. P. R. R. EARNINGS.—The earning of the Union Pacific Railroad for the quarter ending March 31, amounting to $1,353,397, and its expenses during the same time were $764,013. Thus the net income was $559,384.

Capture of an English Steamer by Pirates.

Hongkong Cor. N.Y. Herald, March 6th, 1871.

If any thing was wanting after the Tientsin massacre of last June to convince Americans, Englishmen and other Western nations of the thorough hostility to all foreigners it can be found in the treatment of the English steamer just out from England, which was wrecked on a point off Ocksu Island on the 18th ult. The Don, having touched at Hongkong on her way out, sailed from here to Shanghae on the 11th of February. She ran aground on a point off Ocksu Island on the night of the 13th, the weather being foggy.

The Chinese soon came round in swarms and commenced stoning the passengers and crew of the Don from the high points and crags overlooking the deck. Being unarmed, and fearing that their retreat might be cut off and themselves overpowered by numbers, they took to the boats and quietly slipped away under cover of the fog and darkness. They headed for the nearest coast, not far from Amoy, and, got along very well till daylight the next morning, when the four boats in which they were embarked were surrounded by fishing junks, which ran them down, separated them, then staved in the sides of the boats, plundered them and the passengers of everything—money, watches, provisions, and even as much of their clothing as they could strip off.

The wrecked and unfortunate sufferers were then set ashore to shift for themselves. They attempted to make their way to Amoy, but not knowing the way, and finding no one willing to show them, having nothing to eat and no money to buy anything, meeting only with violence and harsh treatment for three days, they were finally on the point of perishing with cold and hunger, when they fortunately met with one friendly Chinaman, who fed them and guided them to Amoy at the rate of two dollars apiece.

NATIONAL LABOR UNION.—A meeting of National Labor Union Number One, was held at Excelsior Hall, on Tuesday evening, Mr. Black, the President, taking the chair. An Executive Committee was appointed, consisting of C. E. Miller, J. Rafferty, T. R. Houston, J. Hemminger and Mr. Foley.

An address from the State Executive Committee to the people of California, was read by Mr. Delaney, Representative of the Union in the National Labor Convention, held at Cincinnati, Ohio, some months since. The address deprecates in severe terms, the wholesale grants of the public lands made by Congress, and claims that the National domain divided in small tracts should be parcelled out only to actual settlers under the Preemption and Homestead Laws. Such a modification of the tariff is called for as will admit duty free such of the necessaries of life as cannot be produced in our own country, and a discriminating tariff for the protection of home manufactures is recommended. The address also favors the repeal of the present National Bank Law, and the creation of a uniform National currency that shall be a legal tender for all debts, both of the Government and private individuals. It protests in forcible terms against the introduction and encouragement of Chinese labor, and demands of Congress the passage of such stringent enactments as shall in future rid the country of this evil. It endorses the eight-hour system and warns the laboring masses against the encroachments of aggregated capital controlled by Railroad and other monster corporations, and concludes with an appeal to the industrial classes of the State to organize for political action in the coming campaign. The address which is of considerable length and ably drawn, was adopted by a unanimous vote.

HON. J. A. JOHNSON'S LAST SPEECH. In his late speech in Colusa, Mr. Johnson said of the different Gubernatorial aspirants:

I assure you that I am on the best of relations with every aspirant for the position that I know of. Roach is a candidate. He is my friend; a gentleman in every relation of life; one who would fill the gubernatorial office to the entire satisfaction of the people, if chosen. I have never said an unkind word about or uttered an unkind expression with reference to him. McCoppin of San Francisco is also a candidate; a gentleman of enlarged and liberal views; a gentleman of the finest political sagasity; a true Democrat, who would fill the office well. With him I am also upon terms of friendship. Findley of Nevada is also a candidate. I occupy the same relations toward him that I do toward the other gentlemen. Governor Haight is also a candidate. I occupy the same friendly relations toward him that I do toward the others; and I believe, so far as personal friendship is concerned, I have been a little closer and a little nearer to him than any of the rest. I know him to be a gentleman of the finest legal ability; I know him to be a gentleman in every relation of life; I know him to be as purely honest as any man living on the earth. But I do not want him to be Governor of this State of California, because I want to be Governor myself.

A CURE FOR THE AGUE.—The following appears as a leading editorial in the Cleveland *Herald*, and as we have some fever and ague in California, we give it for what it is worth:

"We wish to give a very simple remedy for fever and ague, and wish to emphasize it by saying that it has to our knowledge, proved very efficacious. It is simply common salt. A teaspoonful taken in water and a teaspoonful deposited in each stocking next to the foot as the chill is coming on. That's all there is of it. But knowing that it has been very efficacious in breaking the chill and perfecting a cure, we put it in our editorial columns, where no humbug remedy shall ever find a place if we know it."

A HAPPY WOMAN!—Is she not the very sparkle and sunshine of life? A woman who is happy because she can't help it—whose smile the coldest sprinkle of misfortune cannot dampen. Men make a terrible mistake when they marry for beauty, for talent, or for style; the sweetest wives are those who possess the magic secret of being content under any circumstances. Rich or poor, high or low, it makes no difference; the bright little fountain of joy bubbles up just as musically in the heart.

Buckeye—Harlan & Walsh's, polling place; J. F. Russell, Judge of Election; Delegates, 6.

Washington—Green's Hotel, polling place; W. Green, Judge of Election; Delegates, 4.

By order of the Democratic County Central Committee.

H. C. YERBY, Chairman.

JASON WATKINS, Secretary.

Dated at Woodland, May 24th, 1871. m27:1d

FOR HAIGHT.—A dispatch from Los Angles states that Haight has five of the seven delegates apportioned to that county; in Colusa the entire delegation.

SPECIE FOR EUROPE.—Sixty-five tons of silver coin were shipped to Europe recently in a single steamer from New York. The value was about $2,000,000.

REASONABLE INTEREST.—The *Bulletin* reports a recent loan of $700,000 by one of the San Francisco banks, made at eight per cent. per annum, interest.

INHUMAN BUTCHERY.—A telegram reports that on Tuesday night the Archbishop of Paris, ten hostages and fifty priests were murdered in cold blood by the Communes.

PAYING THE PENALTY,—Beriah Brown has obtained judgment against the City of San Francisco for $1,200 for the destruction of his library by a mob at the time of Lincon's assassination.

INSURANCE REPORT.—We have received the Third Annual Report of Geo. W. Mowe, Insurance Commissioner for California, showing the condition of the different Companies doing business in this State.

DESTRUCTION OF PARIS.—The model city of modern times is now being destroyed by the hands of its own people. Its elegant structures—buildings, monuments, etc.—are being destroyed; even the aid of the devouring element is brought in to complete the work of destruction. The city has been fired in many places and large portions of it destroyed.

GREAT RAILROAD INCORPORATION. The articles of incorporation of the California Pacific Railroad Company, Eastern Extension, capital $50,000,000, have been filed in the Secretary of State's office. Milton S. Latham, A. Gansel, agent of Rothschilds; I. Friedlander, J. P. Jackson, R. Sulzbach of Frankfort-on-Maine General Frisbie, Eugene L. Sullivan, are among the Trustees.

NEGRO KU-KLUX.—The Goldsboro, North Carolina, Messenger, has the annexed; "Five negro Ku-Klux—Henry Vick, Dick Fort, George Hodges, Peter Cooley, and David Read—were arraigned before the Wayne County Superior Court, his honor Judge Clark presiding, on Thursday, to answer an indictment found against them for the whipping of Alaxander Daniel, also colored. It appeared from the evidence that he was whipped about sixty lashes for voting the Democratic ticket."

OVERLAND MONTHLY. — The June number of the *Overland Monthly* magazine, which closes the sixth volume, has come to hand. The proprietors, by employing the ablest writers to be obtained have attained for the *Overland* a standing second to none in the country. The present number contains several articles of especial interest, among them the Yellowstone Expedition, by Walter Trumbull; The Eclipse in Siberia, by Capt. R. S. Franklin, U. S. N.; Northern Whaling, by Capt. C. M. Scammon, U. S. R. M.; A Day on the Los Gatos, by W. C. Bartlett, editor. Address all orders to John H. Carmany & Co., 409 Washington street, San Francisco.

THE POLITICAL OUTLOOK.

The primaries already held show that in the Democratic party the tide is all one way, and that Haight will carry by unprecedented majorities nearly all the interior counties. Let San Francisco be fixed up as it may, it is evident that with or without the metropolis, Haight will have strength enough to give him the nomination, possibly on the first ballot. The only way the Railroad men can succeed, is by buying delegates after their election, and there is an evident determination to send men there who cannot be purchased. As for the other nominations, with one or two exceptions there is nothing clear, the interest in the Gubernatorial election overshadowing everything else.

On the Republican side, Selby's friends have taken time by the forelock in San Francisco, and by a bold move given him the whole delegation from that city without giving the friends of the other candidates the slightest show. It may be that this outragous action will be in some way reconsidered, but it is apparent that the subsidy people are determined to control the Republican nomination if they cannot control the Democratic.

The work that is being done now is by all odds the most important of the campaign. Everything depends upon the nominations, and much upon the character of the men who make them, and it behooves Democrats to be on the alert.

Legal Tender Decision.

A late number of the *Capital*, at Washington City, says:

Very keen chopping of logic that on the part of the Supreme Court in relation to legal tenders. Legal tenders it now appears, were applicable to the payment of debts, both before and after the passage of the Legal Tender Act, unless gold was specifically set forth. A year and a half ago the Constitution was violently opposed to the satisfaction of any contract entered into before the passage of the Legal Tender Act except in gold coin. There was a good deal of sound common sense in the Constitution of that date, but it bore rather heavily upon certain large corporations, which had been paying off their indebtedness in depreciated paper ranging all the way from 88 to 75 cents on the dollar. The vacancies in the Bench were subsequently filled, and it now appears that the Constitution is a different affair altogether. Perfectly legal and constitutional now to have paid debts contracted before the passage of the Legal Tender Act in greenbacks, unless coin was specifically nominated in the bond. Now contracts of that kind, before the Government was compelled to make its paper currency, as we take it, were not very numerous, for dollars were dollars then, no matter whether they took the shape of paper or gold. The great corporations must certainly not have had any obligations of that character on hand. We do not wish to be understood as intimating that the Constitution in its present aspect is not wholly beneficent, but we object most decidedly to this method of changing it. We have not heard lately of the adoption of any amendment which can be held to cover the case.

THE KUKLUK BILL.—Of this latest and greatest Black Republican infamy, the *Nation*, one of the leading papers at the East, by which Radicals have sworn of late years, says: "The statute violates the letter of the constitution by declaring that to be a rebellion against the United States which is nothing more than violence to individuals, and by permitting the writ of habeas corpus to be suspended in time of peace; by authorizing the President to employ military forces in repressing opposition to State laws without any application from State authorities; by extending the prohibitions of the Fourteenth Amendment to cases of private wrong; and by clothing the national courts with jurisdiction over ordinary crimes and with the function of ordinary police repression. It violates the entire spirit of the Constitution by conferring upon the President in time of peace a military discretion which belongs to him only as Commander-in-Chief in time of actual war; and by destroying the separate—although subordinate—independence of the States within their appropriate spheres, which is firmly established in the Constitution as an essential feature of our institutions."

INORDINATE EGOTISM.—The following quotation is from an article in the *Mail* of this week, claiming the honor of first naming Newton Booth as a proper person to be nominated by the Republicans for Governor. It shows the exalted opinion the *Mail* has of its own influence, whatever others may think of it:

"With all due deference to the *Union* and all other small-fry sheets, we wish it distinctly understood that the *Yolo Mail* was the first to urge his name with any earnestness. The fact of the matter is, *we drew around him the support of all papers of any consequence by a forcible stile of political argument* which fired the political heart."

The italics are ours, but the "stile" is not.

THE POPULAR PULSE.—The Western papers are calling attention to the difference between the reception extended to Senator Schurz at St. Louis on his return from Washington, and that accorded to President Grant on his recent visit to the same city. In the former case there was a general outpouring of the masses of both political parties, and the enthusiasm manifested was unbounded; while the attentions bestowed upon General Grant came almost exclusively from office-holders and people with axes to grind; there was no enthusiasm at all.

OLDEST DEMOCRATIC PAPER.—The San Joaquin *Republican* is twenty years of age, having started May 14th, 1851. It is claimed to have been the first Democratic paper started in the State, and has always remained an able, staunch and consistent advocate of Democracy. We hope its next twenty years will be more profitable to its proprietors than the past.

Letter from San Francisco.

SAN FRANCISCO, May 25th, 1871.

THE POLITICAL OUTLOOK.

The news from Colusa of the sweeping victory won by Haight has inspirited his friends and dispirited his enemies. Haight has risen percentibly on the streets since the news was received, and Findly and Johnson have gone down proportionately. The fact that the country is unanimously for Haight is beginning to dawn in the minds of the curbstone politicians, and there is every evidence here of a great reaction in his favor, even among the politicians, while he has all along been strong enough with the voting masses. The only hope of beating him now is by carrying the San Francisco delegates solid against him, and then using money freely and trading for all where trading will be of any avail.

WHO SHALL SEND DELEGATES?

This is still the great question here. The County Committee meets to-night to settle the matter, and I will not anticipate further than to give you an idea of the situation. The first idea of the opposition to Haight, or perhaps to speak more strictly, of the McCoppin men, was to have the members of the County Committee appoint delegates to an intermediate Convention, which Convention would elect delegates to the State Convention. This would give the majority the entire delegation. This plan has been given up. It was apparent that the minority would oppose it to the last, and as the State Central Committee adopted a resolution directing that where appointments were made by County Committeemen they should be made by wards, it became apparent that this cat would not jump. If the individual Committeemen make the appointments the delegation will certainly be divided, and Haight will get at least a respectable minority, and to avoid this it is now the opposition plan to call Primaries to elect Delegates to a County Convention which shall choose the delegation. They are confident of their ability to carry a majority of the Convention, and those who know how Primaries are conducted in this city do not doubt that with the means at their command they will be able to do this, for the County Committeemen have the apointment of Judges and Inspectors, and by naming the right kind of men can secure what result they choose. It remains to be seen whether this plan can be carried. One great obstacle is the natural indisposition of Committeemen to waive their power and importance. Some of them could carry all their points at a Primary, but others of them could not. Rumor is rife as to the plans which will be adopted, and opinions vary. We will soon see.

ALAMEDA COUNTY.

The probabilities are now that in spite of the opposition of the Railroad and the Oakland gang, Alameda county will go for Haight; but his friends there will have to be on the watch on election day, as no means will be spared to carry the Primaries against him. There will be a severe struggle for the organization of the Club in Oakland on Saturday night, and a lively time is expected.

COL. LEWIS.

A report was in circulation here at the close of last week that Lewis of Tehama, one of the most prominent candidates for Lieut. Governor, had written a letter in which he announced himself as against Haight, but this has been promptly denied by the *Examiner*, on the authority of Col. Lewis himself. This attempt to make prominent Democrats appear as against Haight has been made in so many cases that assertions of this kind have now little weight even if not denied.

ARREST OF GAMBLERS.

Our police have again been earning the plaudits of the reporters, who are always glad to puff them for the sake of facility in getting items, by making a descent upon some keno gamblers who had leased Congress Hall, on Bush street. This is all very well as far as it goes, but why do the police, who use such commendable activity in breaking up keno playing, show no disposition to disturb the twenty or thirty faro game swhich go on from year's end to year's end in this city almost publicly, and without the slightest hindrance. The fact is that the big gamblers are in with the police, and when the police make a descent on a gambling house you may be sure that it is because the regular gamblers would rather see it squelched than not, for they do not relish competition in their trade any more than more respectable people. Gambling ought to be licensed by the State instead of by the police. Though prohibited by law it will go on, at least it does go on, and we had better change our law so as to allow it under proper restrictions and the payment of a heavy license.

NEWSPAPER MATTERS.

The *Call* has reformed, abandoned its social gossip and its publication of private matters, and become quite decent. The *Chronicle* is worse than ever, and on Sunday last devoted about two columns to ridiculing one of Dr. Scudder's Deacons who had sent to the States for a girl who refused to marry him after she got out here. The *Call* has recently secured two of the *Chronicle's* best men—Newcomb and Sutherland, which makes some four that Pickering has taken from De Young within a month or two; but somehow or other the *Chronicle* proprietors manage to secure fresh talent to write up their diabolisms in the highest style of the art as soon as they lose one set, and though the *Call* has been much improved the *Chronicle* shows no falling off. The editorials of the *Call* also show an improvement. There is evidently a new hand at the bellows there. Dr. Ames takes Brooks' place as news editor of the *Alta*; Bowman is writing up the *News Letter*, assisted by O'Connell, who occasionally writes some fine poetry for the *Overland*.

SAN FRANCISCO, May 23th, 1871.

THE DEMOCRATIC COMMITTEE.

The Democratic County Committee met last evening, but with closed doors, and after a short meeting adjourned again to meet to-morrow night. The *Chronicle* of this morning says that a list of delegates was read; but this is not so. Nothing in the way of making appointments was done. The truth is that it is doubtful whether any decisive action will be taken on Friday night. The game is not yet made. Rumors are afloat that the money of the C. P. is making its appearance, and it seems pretty well understood that Haight will in any event get but a small proportion of the delegates. It is too bad that the Democracy of San Francisco have but to choose between the action of such a Committee and Primaries at which there will be no guarantee of fairness.

THE REPUBLICAN COMMITTEE.

A grand *coup d'etat* in favor of Selby was made last night by the Republican County Committee and a delegation of first class Selby men named. The thing was well managed and was apparently a success; but it has created great disgust among Republicans, and it is not certain that it will not do Selby far more harm than good. In fact it is said that the whole thing will be broken up and the Committee be compelled to take back their action. The sequel may show that Selby's managers have overreached themselves in this; but there is an evident determination on the part of classes that wield a great deal of power in the Republican ranks, to have him nominated if it is in any way possible. OMEGA.

What a Radical Paper Thinks of Schurz's Speech.

By far the most striking part of Senator Schurz's remarkable speech was that in which he referred to the political condition of the State of Missouri. We wish that his statements could be candidly considered, not only by politicians, but by the whole country. They furnish more light in regard to the best legislation for Southern difficulties than all the arguments that have been put forth in the last seven years. There is, said he, profound and serene peace throughout the State of Missouri, where but a few years ago neighbor carried on bloody warfare against neighbor, and where the torch and devastation were dessolating the land. Every citizen, even the lowliest, is securely enjoying his rights, and this peace is not precariously maintained by force, but is every day receiving a stronger guaranty by the revival of the long lost cordiality of feeling. That cordial feeling is to-day stronger in Missouri than it ever was, even before the war.

Now, it might be supposed that every politician in the country would be anxious to know how this desirable state of things was attained in Missouri, how it happens that there is such a difference between the condition of Missouri and that of the other Southern States: for if the language of Senator Schurz could be applied to the rest of the Southern States, it would be satisfactory proof that at least all our Southern difficulties were over. Are the peace and security enjoyed by Missouri the result of avenging legislation and military force? On the contrary, disfranchisement was wholly done away with; the political rights of all citizens were secured, without regard to the past; legislation of an amicable and pacific kind was supported by both parties. It was this, according to Senator Schurz, that brought about the new era of good feeling, that good feeling which alone can wipe out the animosities and heal up the wounds of the war.

It is very satisfactory to read such language as this, and we trust it may be pondered by the people till it produce its full effect.—*Cincinnati Commercial.*

The Southern Platform.

In response to the sneering inquiry of northern sectional loyalists and South-haters as to what is to be the Southern platform, the Baltimore *Gazette* toes the mark in this style—a cud that will stand a good deal of chewing by the aforesaid inquirers:

"It is high principle, straightforward honesty, and unswerving consistency. It is to bury the past, to accept the present, and to trust the future in the profound faith that there is nothing so certain as the unforeseen, and that, in the thousand chances and changes of life, there is always something in store for those who pursue a high purpose with a strong will. We want no platform but an honest leader and manly principle. We accept negro voting, under protest, and wait for time to pass its verdict upon it. We have turned over to the Republicans the rotten plank of annexation, which will one day be as fatal to the country as it proved to the South. We are opposed to military despotism, to Federal authority at the polls, to the consolidation of power, to the distribution of public lands among party plunderers, to the squandering of the public funds, to high tariffs, to corrupt legislation and to knavery and corruption of every kind, in whatever shape they may raise their hydra heads. This, surely, is platform enough. Our great strength lies in a united front. Let us attack solidly, and when we have routed the enemy it will be time enough to prepare means for maintaining our position."

CONTRAST.—The Caucasian remarks: "J Milton Turner, a Missouri negro, has just been appointed Minister Resident and Consul General to Liberia. Salary, $6,500 a year, in gold. Drudge, toil, sweat, ye dastardly white slaves. Five hundred and forty-one dollars per month—$125 per week—$17.85 a day—nearly a dollar an hour, in gold—must come out of your earnings to pay this negro representative of your Yankonigger administration. While the sweat-scented Consul-General is packing his offical trunk, turn for a moment to another picture. General Robert Anderson, the "hero of Fort Sumpter," so-called, a soldier of the Union, a scholar and a gentleman, and as gallant an officer as ever wore the Lincoln blue, is dying in a foreign land, of disease contracted in the service of his Government—dying impovished, destitute—so poor that he had to sell his library to save himself and his little ones from starvation! American white men look at the two cases, and say how you like 'em. Ain't it nice? Who wouldn't be a negro?"

ABOUT TO EXPLODE.—The Chinese diplomatic humbug is about to explode. A New York dispatch says "the belief is expressed by high officials that news may soon be expected from China which will cause some action on the part of the Administration on the question of further continuance of the diplomatic relations with that country." What will be the character of that news? Most likely Lowe and his family have been chopped into mince meat and fed to the dogs. It would require something of this kind to convince the Radicals that the Chinese have been playing us for years, and we have nothing to expect except what we take at the mouth of the cannon.

Poisonous Medicines.

The theory that the virus of disease can be safely counteracted by doses of poison, is false and dangerous. Within the last twenty-five years, not less than a score of virulent poisons have been added to the repository of the medical profession. They are given in small doses, otherwise they would destroy life immediately; but even in minute quantities, they produce, ultimately, very disastrous effects. It is unwise and unphilosophical to employ, as remedies, powerful and insidious drugs, which in subjugating one disease sow the seeds of another still more unmanageable. None of these terrible medicaments operates with as much directness and certainty upon the causes of disease as Hostetter's Stomach Bitters, a tonic and corrective, without a single deleterious ingredient in its composition. Arsenic and quinia are given for intermittents; bromide of potassium for nervous disorders; strychnine and prussic acid for general debility; mercury, in various forms, for liver complaint; preparations of chloroform and opium for sleepiness; and yet these deadly drugs do not compare, as specifics for the diseases above enumerated, with that wholesome vegetable invigorant and alterative, while they are all so pernicious that it is astonishing any physician should take the responsibility of prescribing them. Let invalids, for their own sakes, try the Bitters before they resort to poisons. The relief they will experience from a course of the harmless specific, will render a recourse to the unsafe preparations referred to quite unnecessary. my6-1m

THE DOMESTIC

Sewing Machine!

A New Favorite in California.

The Domestic Sewing Machine has just been introduced into this State, and is now offered to the public. It makes the Shuttle or Lock Stitch, alike on both sides, uses a straight needle, and its range of work is from the heaviest to the most delicate fabric, sewing every kind perfectly. It has a self-adjusting tension, which requires no alteration in changing the thread, or in sewing different thicknesses. In simplicity and durability it is unequaled. One great advantage in this machine is, that it will sew over thick seams without difficulty.

The Domestic Stands on Its Merits Alone,

Which have secured it large sales wherever it has been introduced. It combines beauty of appearance with easy, quiet action and perfect work.

THE DOMESTIC SEWING MACHINE is furnished in various styles, the prices ranging about with those of other first class machines.

Town and County Matters.

Democratic Committee Meeting.

Pursuant to call by the Chairman, H. C. Yerby, the Democratic County Central Committee met in Woodland on Wednesday, 24th inst., and organized by electing Jason Watkins, Secretary. There were present, H. C. Yerby, President; Jason Watkins, Secretary; J. L. Underhill, James Oneal, L. D. Stephens, and J. W. Snowball—six delegates.

It was moved and carried that a call be issued for a County Convention to be held in the Town of Woodland on Saturday the 17th day of June, A. D. 1871, and that the Primary Elections be held at various precincts of the county on Saturday, the 10th day of June, to elect Delegates to the State and Congressional Convention, and to nominate a full County Ticket for County Officers.

It was moved and carried that the representation be apportioned as follows: One vote for each precinct and one vote for every 25 Democratic votes and one for every fraction over 12 votes cast at said precinct for Representative at the last election.

It was moved and carried that at each precinct the polls be kept open for the Primary Election, from 1 to 3 o'clock. The precincts, polling places, Judges of Election, and apportionment of delegates will be found in the call in another column.

IRRIGATION MOVEMENT.—The present dry season has revived the project which has been speculated upon for years, by several prominent gentlemen for the irrigation of the western side of the Sacramento Valley. The project is to construct an irrigating canal from the upper Sacramento to Suisun Bay, which will run along the foothills and furnish water for irrigating hundreds of thousands of acres of excellent land, now almost useless for agriculture from lack of sufficient moisture in dry seasons. It is said that Jerome C. Davis and Chas. F. Reed are at the head of the movement. Congress has been asked for a donation of 12,800 acres to the mile. A modest request, surely, and one which we trust will not be granted. No doubt immense benefits would result from having the canal constructed, but we doubt the propriety of any donation by Congress of lands belonging to the people. If the canal will do what is claimed for it, it would be a first class investment for capital. The legitimate proceeds would yield an immense revenue and afford heavy dividends on the capital invested.

WATER WORKS.—The Company is going ahead with the arrangements to supply our citizens with water as soon as possible. The well affords an abundant supply, as constant pumping by steam has already demonstrated, and the quality is pronounced first rate. A contract has been let for the construction of an elevated platform 42 feet high, upon which will be placed an immense tank to receive the water, of a capacity of many thousand gallons. This will give force enough for our highest buildings. The tank is to be ready for the water in 35 days. Pipes will soon be laid in the streets and in buildings where required.

MOONLIGHT EXCURSION AND SOCIAL BALL. The ladies of the Unitarian Social Circle of Sacramento, advertise a moonlight excursion to Woodland, and a Social Dance at Washington Hall, Tuesday evening, May 30th, to which the ladies and gentlemen of Woodland are invited. A committee consisting of Mr. Allen, of Davisville, and Messrs. C. W. Bush, W. A. Henry, and T. P. Magee, of Woodland, will act in connection with the Sacramento Committee. The excursion party start from Sacramento at 7 P. M., and from Davisville at 8 P. M. Dancing will commence at 9 o'clock. Music by Church & Jones, of Sacramento. Tickets, $1.00.

DEMOCRATIC ADDRESS.—At the Democratic Club meeting this, Saturday evening, an address will be delivered by Judge James Johnson, to which the public are invited to listen. Probably few men in the party understand the political questions of the day better than Judge Johnson, and very few know better how to present them to an audience. It is hoped there will be a full turnout of members of the Club and the public. The campaign is opened and all should become thoroughly posted. We expect to hear an interesting and instructive address, and we know it will be Democratic all over.

CHEAP EXCURSION.—An excursion is announced to San Francisco via the Cal. Pacific Railroad and Steamer Capital, on Sunday, May 28th, for $2 the round trip—children half price—including admission to Woodward's Gardens. Cheap enough. The Company is too poor to advertise, but for the benefit of the public we will mention that the train leaves Woodland at 7:30 A. M., and returning, steamer Capital will leave San Francisco at 4 P. M.

SPLENDID BARLEY.—We have before us a sample of barley as fine as we ever beheld, from the ranch of Mr. Thomas Billings, six miles south west of this place, who has about 25 acres only. If the whole field is as good as the sample it ought to yield 40 bushels per acre. The heads are very large and long, and the kernels plump and full. It received no irrigation, but is a result of good farming in a dry season.

DISTRICT COURT.—Herring, who was tried last week for murder, and found guilty, was sentenced yesterday by Judge Ramage to 21 years' imprisonment. Boone, the accomplice of Herring was acquitted and discharged. Several civil cases have been disposed of, none of them of a very important nature. We are unable to give particulars.

NEW STYLES OF MILLINERY.—A large and varied assortment of new Millinery Goods, etc., just received at Mrs. Clinton's establishment, Odd Fellows' block, Main street, Woodland. Ladies, call and see for yourselves. my13-3w*

REMOVED.—The office of THE YOLO DEMOCRAT has been removed to the new building adjoining the old location, and in consequence we have not been able to devote as much time as was necessary to this issue.

REFRESHING.—The warm days of the past week have brought into active play the soda-water fountain of Ruggles & Riendollar, and hundreds regale themselves with the cool, refreshing beverage.

For the very best Photographs, go to BRADLEY & RULOFSON, No. 429 Montgomery Street, San Francisco. ☞ Closed on Sundays. ☜

Democratic State Central Committee

At a meeting of the Democratic State Central Committee, held in the city of San Francisco upon the 16th day of May present, it was

Resolved, That a State Convention be held in the city of Sacramento, on Tuesday, June 20th, next, at noon, to nominate candidates for Governor and other officers of State.

The following was unanimously adopted by the Central Committee, and directed to be published for the guidance of County Committees or County Conventions.

Resolved, That the vote cast for Seymour and Blair Electors at the November election, 1868, be and the same is hereby fixed and declared to be the basis of apportionment for Delegates to the Democratic State Convention from the various counties of the State, and of Delegates to the County Conventions from the various precincts and townships of counties; that one Delegate to the State Convention be given for each county, one for each two hundred Democratic votes cast at said National election, and one for every additional one hundred votes and over.

Resolved, That in those counties in which no primary elections shall be held, it shall be the duty of the County Committee or Committees making appointments of delegates to the State Convention, to allow the representatives of each township or ward to appoint the delegates for such township or ward. Provided, that nothing herein shall be considered as advising County Committees to appoint delegates to the State Convention, but in case said committees shall appoint them, this Resolution shall be mandatory and imperative upon said committees in making appointments.

Resolved, That all voters in the State of California who are opposed to the Radical measures of Congress and who pledge themselves to support the Democratic nominees at the ensuing election, shall be permitted to participate in primary elections for delegates to the Democratic State Convention.

The Central Committee urgently request the different County Committees of the Democratic party to call their County Conventions for the election of Delegates at as early a date as possible, and to forward to Thomas N. Cazneau, Secretary of the State Central Committee, at their rooms, No. 321 California street, San Francisco, a full list of their County Committees, Officers and Members.

By order of the Democratic State Central Committee.

SPECIAL NOTICES.

SPRING IN NEED.—Dr. Wistar's Balsam of Wild Cherry is a friend indeed. When that not found it such in curing all diseases of the lungs and throat, coughs, colds, and pulmonary affections, and "last, not least," Consumption? m27-2

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY will not raise the dead, but it will benefit and cure the living. For all severe coughs, throat and bronchial diseases it has never yet been equaled. For Liver Complaint, or Biliousness, and for Constipation of the Bowels, it is a never failing remedy.

NOT MERELY TO TICKLE THE PALATE, but to infuse health and vigor into the enervated and diseased system, is the high purpose and sure effect of Dr. Walker's Vegetable Vinegar Bitters. This famous restorative creates no sudden flash of excitement, to be succeeded by increased debility and ten-fold gloom. It braces the relaxed nerves and imparts permanent tone and regularity to the whole animal machinery. Dyspepsia, liver complaint, physical prostration, diarrhœa and in fact nearly all complaints that are not organic, yield to its operation.

REINDOLLAR'S
Horse Condition Powders!

Will cure Distemper, Farcy, Hidebound, Colds, and all lingering diseases which may arise from impurities of the Blood or Lungs. For the general improvement of the Horse, it cannot be surpassed. Prepared and sold by RUGGLES & REINDOLLAR. mh4-3m

TRAVELLERS are always liable to sudden attacks of Dysentery and Cholera Morbus, and these occurring when absent from home are very unpleasant. The Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine clear.

In cases of Asthma and Phthisic take a teaspoonful in a gill of hot water, sweetened well with molasses; also bathe the throat and stomach faithfully with the medicine, clear.

Dr. Sweet says it takes out the soreness in cases of bonesetting faster than anything he ever applied.

Fishermen so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be relieved by bathing with the Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. The bites and scratches of dogs and cats are soon cured by bathing with Painkiller, clear. my6

COMPOUND SARSAPARILLA

The Safest and Best

BLOOD PURIFIER

EVER IN USE.

A certain cure for Mercurial and Constitutional affections, Scrofula or King's Evil, Salt Rheum, White Swellings, Tumors, Ulceration of the Bones, Liver and Kidney Complaints, Neuralgia, Constipation, Dyspepsia, Headache, Weakness and Obstructions, and all the

Diseases arising from an Impure State of the Blood

This preparation is absolutely free from any Mercurial or Poisonous substance. It is prepared after careful experiment and a long and wide experience in observing the effect of the different ingredients. It possesses the priceless quality of effecting by its quiet and gentle action a gradual and thorough Purification of the blood. The strongest will find it a searching one.

INFALLIBLE CURE.

The most delicate female or child can take it with impunity, and the remarkable success attending its use warrants the Proprietor in claiming it as the best family remedy in use.

Dyspepsia and Constipation

Are immediately relieved by this compound; its steady and gentle operation gives nature the required assistance, and in a short time the organs are sufficiently invigorated to perform their functions without artificial aid.

AS A SPRING MEDICINE

IT IS INVALUABLE,

Removing that sluggish, dull feeling which the winter often leaves in the system, banishing all skin eruptions and making the complexion clear and bright.

It is the cheapest, healthiest and most delicious food in the world. It makes a splendid Dessert, and has no equal as a light and delicate food for Invalids and Children.

A Glorious Change!!

THE GREAT WORLD'S TONIC.

Plantation Bitters.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate, or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits. For sale by all druggists.

THE GREAT

BLOOD PURIFIER.

Hear the Voice of the People!

JUDGE S. HEYDENFELDT says: "My attention was called to it about eighteen months ago, when I had been suffering with rheumatism for more than a year, and had failed to find relief from other remedies. The YERBA SANTA relieved me entirely in two days. Some ten or twelve cases of Rheumatism, two cases of Gout and two cases of Neuralgia have been relieved within my immediate knowledge." E. H. SINTON says: "I fully concur with Judge Heydenfeldt in regard to the curative powers of YERBA SANTA. I have prescribed it, and take pleasure in recommending its use to those afflicted with Rheumatism in any of its forms." T. J. JENKINS, M. D., (Physician to Butte County Hospital,) says: "I have used YERBA SANTA for some years in my private practice as physician. I have found it invaluable in cases of Chronic Rheumatism, and of much benefit as an alterative Blood purifier and tonic." FRANK MATHEWS, of Oroville, says: "Some years since, I was, as many do, a Rheumatic cripple in hands and feet, unable to move except in crutches, at all times suffering great pain. I was induced to try YERBA SANTA. I soon experienced great benefit from its use. I am at the present time strong and indeed I recommend it to those who are afflicted as I was to try it." CHAS. WALDYER, of Chertokee, Butte county, states: "For many years a sufferer from Rheumatism in its most painful type I sought relief in YERBA SANTA, and in all cases a perfect, speedy cure was the result." J. R. ROBERTS, of San Francisco, says: "I had for three years been afflicted with Rheumatism, to such an extent that in all that time I was unable to do any work. I was at last induced to try YERBA SANTA; after using two bottles I was completely cured, and am now as well as I ever was in my life." M. H. BARRACK (County Clerk of Butte county,) says: "I have seen much of the beneficial effects of YERBA SANTA in Scrofula, also in Salt Rheum, Rheumatism and Neuralgic affections. I believe I know of no instance where it has failed to cure." YERBA SANTA completely restores the system when impaired by disease, revives the action of the kidneys, and radically cures scrofula, Salt Rheum and all eruptive and cutaneous diseases. It is PURELY VEGETABLE, being made from an herb indigenous to California. It is therefore peculiarly suitable for use by Females and Children, as a Blood Purifier and Renovator. YERBA SANTA is for sale by all dealers in family medicines.

The Yolo Democrat.

AN APPROPRIATE SONG.

Know ye the land where the Radical Vulture
Is the emblem of Satraps who rule its fair soil?
Where all is "protected" except Agriculture,
And Labor is free—to pay taxes, and toil;
Where the Farmer is robbed when he sells his productions,
And robbed once again when he buys what he needs;
Where the over-gorged Vulture croaks "more" for Protection,
While the hard-working yeoman at every pore bleeds;
Where the bondholder sits on his throne like a vampyre
And cuts off his coupons untaxed at his ease,
Where the soldier who fought through flood, field and fire
Is taxed for the steel bands screwed on at his knees;
Where the lion lies down with the lamb—in his belly—
And the shoddies proclaim "the millenium is come!"
Where Grant spreads his "peace" o'er the desolate valley,
Where Negroes make laws and blind Justice is dumb;
Where all things are changed and new nomenclature
Is given to all things both sides the grave;
Where the Gospel is preached to suit sordid nature,
And hell is abolished to please every knave;
Where "success" is the standard of right that such follow,
Where to steal half a million is glorious and bold,
Where the truth is eclipsed by the "almighty dollar"
And the Devil is worshipped in purple and gold;
Where the Eagle is down and "E Pluribus Unum"
Is scouted, ignored and trailed in the dust;
Where the many are ruled by the few greedy new-men
Who have stamped on a nickel in God how they trust!
'Twas the home of the brave, 'twas the land of the free,
Where our sires nursed with blood fair Liberty's tree.
Must we now be all slaves in the South, in the West?
Is there, then, no refuge for the millions oppressed?
Shall thieves hold us down and rob us and keep us all?
Oh! what is the remedy for the good toiling people?
We want no new party with ideas erratic;
No, stick to the platform, the old Democratic!
Up with the Eagle and down with the Vulture—
Make these your vows and each day renew them—
For Free Trade, Equal Taxes, and Free Agriculture,
For God's blessing on them and E Pluribus Unum!

THE *Territorial Enterprise*, of April 30th, states that according to information received, a surprising change had occurred at Steamboat Springs. The springs had suddenly dried up, and no steam or water was issuing as before. The statement, if true, is most interesting and important.

WILLIAM L. BARRY, a compositor on the Lebanon (Tenn.) *Herald* has just passed his 91st birthday. He is promptly at his case at 7 o'clock every morning, and sets six thousand ems a day without the least difficulty. He began to set type 73 years ago, and still follows the business out of love for the art, having no need to work for money. Barry is still hale and vigorous, and full of animal spirits.

A COLORED member of the Texas Legislature was met upon the street with a large roll of greenbacks in his hand looking at his pile, and cackling so loud that he attracted the attention of a bystander, who said to him, "What are you laughing at, Jim?" Jim replied, "You see that money?" "Yes." "Well, Boss, I just got that for my vote; I'se been bought four or five times in my life, but dis is de fust time I eber got de cash myself."

OFFICIAL.—The census returns of California are at length completed—if not complete—and the books show the following footings: The total population of the State is 560,223, including 49,311 Chinese and 6,895 Indians. Of this number there were born in California, exclusive of 6,251 Indians and 485 Chinese, 163,151, and there were 209,827 born in foreign countries. The resident population of San Francisco is returned at 146,473, which total includes 12,022 Chinese and 1,330 colored.

A CURIOUS and beautiful effect was produced by one of the ice making machines built lately in Philadelphia. This was a cake of manufactured ice, in the center of which, completely enclosed by the translucent material, was a boquet of fresh flowers. Every leaf and flower was perfectly visible, while the brilliancy of the colors was enhanced by the refraction through the ice. This specimen of Summer entombed in Winter was produced by the Carre-ammonia process, a French invention under which these machines are operated.

A NEW cure for consumption has been introduced at Boston, called the "Atmospheric Treatment." It consists in immersing the body below the neck in a partial vacuum. It is thus relieved in a measure from atmospheric weight, while the air breathed is still of the usual density. It is claimed that the patient under these circumstances breathes fully and freely to the very depth of his chest, bringing into action portions of the lungs otherwise little used, and increasing accordingly the purification and revivification of the blood as it flows through the passage of the lungs.

R. H. McDONALD & CO., SAN FRANCISCO, CAL.

FOR SALE.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes, and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say that in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and countries far beyond, we are necessitated to devote our entire time to said business.

We are the Oldest Drug Firm on the Pacific Coast, and the only one continuous under the same proprietors since 1849, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of

N. B. Until a sale is made we shall continue our importations and keep a large stock on hand, and sell at prices to defy competition.

The Great Medical Discovery!

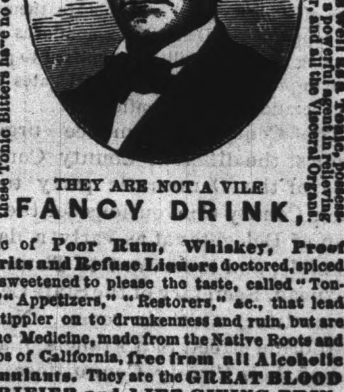

DR. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE

FANCY DRINK,

Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth Billious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY,

No. 632 Kearney Street, corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcered Legs, etc., successfully treated.

DR. GIBBON

Has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness

Produces with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, foeted breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cure at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr. Gibbon, stating case, symptoms, lenth of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing $10 in coin, in a registered letter, through the Post Office or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

PSYCHOMANCY!

Any lady or gentleman can make $1,000 a month, secure their own happiness and independence by reading Psychomancy, Fascination or Soul Charming, 400 pages. Full instructions to use this power over men or animals at will, how to Mesmerize, become Trans or Writing Mediums, Divination, Spiritualism, Alchemy, Philosophy of Omens, and Dreams, Brigham Young's Harem, Guide to Marriage, etc.; 200,000 sold. Sent by mail in cloth for $1 25; paper covers $1 00. The Philadelphia *Star* speaking of the book says its author is Herbert Hamilton, B. A., the celebrated Psychological lecturer, and the publisher, T. W. Evans, one of the oldest established Perfumers and Publishers in the city, the mention of whose name is a sufficient guarantee of the merits of the work. Mr. Evans has spent $60,000 already, in advertising and getting out this extraordinary book. Skeptics in Psychology read and be convinced of this wonderful occult power.

NOTICE.—Any person willing to act as Agent will receive a sample copy FREE. As no capital is required, all desirous of genteel employment should send for the work, inclosing 10 cents for postage, to T. W. EVANS, 41 S. Eighth St., Philadelphia, Pa. ap8-3m

WANTED AGENTS.

Seventy-five to two hundred dollars per month everywhere, male and female, to introduce the Genuine Improved Common Sense Family Sewing Machine. This machine will stitch, hem, fell, tuck, bind, braid, cord, quilt and embroider in a most superior manner. Price, only $15. Fully warranted for five years. We will pay $1,000 for a machine that will sew a stronger, more beautiful or more elastic seam than ours. It makes the "Elastic Lock Stitch." Every second stitch can be cut, and still the cloth cannot be pulled apart without tearing it. We pay agents $75 to $200 per month and expenses, or a commission from which twice that amount can be made.

For Circulars and Terms, apply to or address,
C. BOWERS & CO.,
